Antitrust Compliance Notice

Greg reminded the TSC of its antitrust compliance notice.

Greg introduced the Agenda for the meeting:

- Approve minutes from last call
- Vote on Update Service
- 14.06 Status
- New Members

Approve minutes from the last call

Greg called for a motion to approve the minutes from the last meeting. Moved, seconded, than unanimously approved by TSC.

Vote on Update Service

Greg reminded those on call that the scope of project is to deliver an API and a common implementation into the open source which accomplishes the following use cases:

- Enables AllJoyn device owners to securely update their device's software from an application running on a high end device in the proximity network
- Enables AllJoyn device OEM to build a software management solution that provides software updates to their AllJoyn devices

Any questions/final comments

Greg noted we are proposing this will be initially presented under the Gateway Working Group

14.06 Release Update

Greg noted they are experiencing stability issues with the new UDP transport, with a failure observed during stress testing. The team is working aggressively on performance and bug fixes. The action taken is that UDP will be an experimental feature in 14.06 and commercialize in 14.10

New Members

Greg made note of the new members to the AllSeen Alliance. These new members include Geo Semiconductor, Local Motors, Octoblu, Razer, Red Bend Software, and Symantec.

Greg opened the floor to additional topics

Joe Speed noted that he presented at IoT World today in Palo Alto and it resonated well with the audience
