

AllSeen Alliance
TSC Minutes
February 10, 2014
7:00pm PST
via WebEx

Jun Zhang, Greg Burns, Josh Hershberg, Takeshi Matsushita, Mathew Martineau,
Todd Benzies, Tolly Smith, Daeyoung Kim

Agenda,

- Update on build system progress
- New I&T subcommittee members
- Base services 14.02 release
- Open discussion on C&C Working Group
- New meeting time proposal

Infrastructure and Tools Update

- Mathew Martineau gave an update
 - o LF is bringing up a Jenkins servers, and an Amazon AWS build machine (Ubuntu)
 - o Continuing to set up Jira server (want to be able to take new bug reports) – should be ready in the next 1-2 weeks (jira.allseenalliance.org)
- Additional subcommittee members; we are asking people to volunteer their time

Base Services 14.02 Release

- Josh Hershberg gave an update
 - o New features
 - Notification dismiss – ability to propagate a notification dismiss to all devices on the proximal network
 - Notifications – ability to detect loss of super-agent
 - iOS Bindings for Control Panel, Config, and Notification services
 - Refactoring/reorganization of thin client service code and samples
 - Compliance and certification tests

Bug Fixes

- Can review the list in the TSC deck for this weeks meeting

Certification and Compliance Work Group

- Waiting on guidance from C&C Committee on high-level guidance from a business perspective
- Need to get the WG formed as soon as possible

- Priorities
 - Test specifications
 - Conformance criteria and checklists
 - Test codes
 - Test tools
- Do we take the work from the workstream and evolve that into the C&C Work Group?

Meeting Time

- Greg suggests to move the call to 6am PST on Tuesdays
 - Discussion ensued and the decision was made to wait to talk with the new Technicolor TSC member to gauge his availability
- Further discussion resulted in trying 6am for this coming Tuesday 2/18 (then alternate to late on Mondays, exact time TBD)
