

**ALLSEEN
ALLIANCE**

Core Working Group Meeting

The contents of this document, and the interfaces described, and all the information herein, are the result of collaborative discussions by the Core Working Group. This summary documents the final consensus of the team.

**Reminder:
This call is being
recorded**

Antitrust Compliance Notice

- AllSeen Alliance meetings involve participation by industry competitors, and it is the intention of AllSeen Alliance to conduct all of its activities in accordance with applicable antitrust and competition laws. It is therefore extremely important that attendees adhere to meeting agendas, and be aware of and not participate in any activities that are prohibited under applicable US state, federal or foreign antitrust and competition laws.
- Examples of types of actions that are prohibited at AllSeen Alliance meetings and in connection with AllSeen Alliance activities are described in the AllSeen Alliance Antitrust Policy. If you have questions about these matters, please contact your company counsel, or if you are a member of AllSeen Alliance, feel free to contact Lee Gesmer or Andrew Updegrove, of the firm of Gesmer Updegrove LLP, which provides legal counsel to AllSeen Alliance.

Agenda

- 16.10 Feature Status:
 - https://wiki.allseenalliance.org/core/core_16.10_release_plan#themes_and_priorities
 - Only open item on list other than those noted below is ASACORE-1811
 - AI: Josh working to get branch merged
- Branch/no-branch?
 - No branch today.
 - Branching for TCL: when IPv6 branch is merged, should be next week, but Carrie will give date per AI below
 - Branching for SCL: when IPv6 is merged, when Java Sec2.0 bind and test complete
 - AI: Carrie to give test strategy review in 9/22 meeting
 - AI: Marcello add bug bar dates to agenda for 9/22
- When does the 16.10 TCL need to be content complete?
 - AI: Carrie to follow up 9/22 meeting
- Will we be able to call 16.10 SCL content complete on Monday 9/19?
 - Updated plan from Way indicates that testing should be complete on IPv6 branch before then, so likely
- Sec2.0 tests for regression testing?
 - Use the security samples across platforms.
 - AI: Way to provide C samples that should be replicated in ObjC and Java – Way will also provide test steps and document all in TestLink
 - Please order the samples in the priority order for testing
 - AI: Josh let George and Jorge know they will have to write samples
- AI: Affinegy team to review existing test cases for new features or updated components (TestLink)
 - Still open

Thank You
