

**ALLSEEN
ALLIANCE**

**HAE Service Framework –
Weekly Technical Meeting**

February 18, 2016

Antitrust Compliance Notice

- AllSeen Alliance meetings involve participation by industry competitors, and it is the intention of AllSeen Alliance to conduct all of its activities in accordance with applicable antitrust and competition laws. It is therefore extremely important that attendees adhere to meeting agendas, and be aware of and not participate in any activities that are prohibited under applicable US state, federal or foreign antitrust and competition laws.
- Examples of types of actions that are prohibited at AllSeen Alliance meetings and in connection with AllSeen Alliance activities are described in the AllSeen Alliance Antitrust Policy. If you have questions about these matters, please contact your company counsel, or if you are a member of AllSeen Alliance, feel free to contact Lee Gesmer or Andrew Updegrove, of the firm of Gesmer Updegrove LLP, which provides legal counsel to AllSeen Alliance.

**Reminder:
This call is being
recorded**

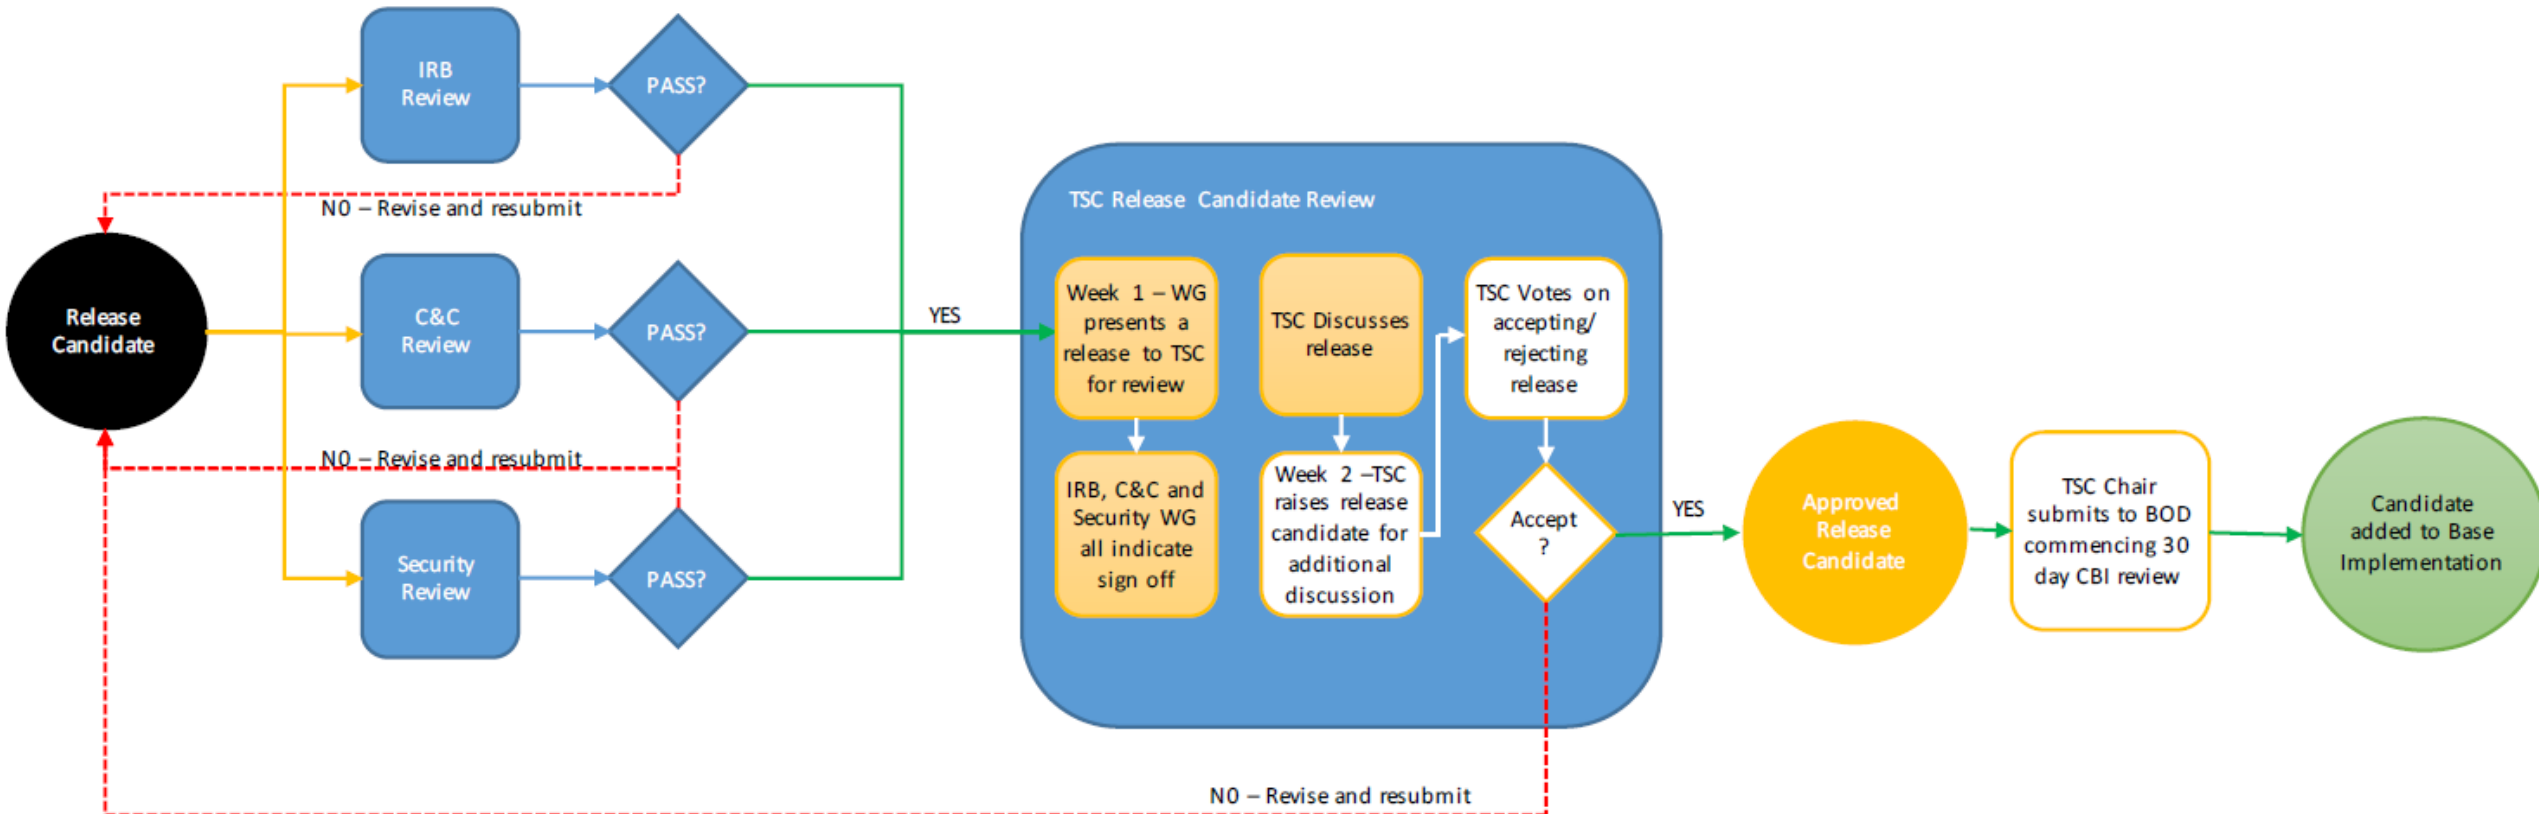

Agenda

1. Approve Meeting Minutes from Previous Meeting
2. Review Process for Inclusion as Base Implementation
3. Update Project Milestones
4. Other Businesses

Review Process for Inclusion as Base Implementation

- <https://allseenalliance.org/compliance>
- **CBI Review (or IP Review) requires all passes from IRB, Security and C&C reviews.**

Update Project Milestones

No.	Milestone	Oct. 05, 2015 Update	As of Today
1	Service Framework Source	Feb. 26, 2016	TBD1 (Mar. 4 ?)
2	Test Suite (Test Cases Spec., Test Codes), Reference Controller App (Android), Device Emulator	Apr. 29, 2016	TBD2 (May 27 ?)
3	C&C Review	N/A	TBD3 (=TBD2 + 1M ?)
4	Certification Launch (CBI Review)	May 27, 2016	TBD4 (=TBD3 + 1.5M ?)

- Milestone No.2 demands a huge amount of work. Voluntary contributions for the Test Cases development especially from non code contributing members are highly requested. If we could have a Test Cases Spec. Owner, then it would be very much efficient and appreciated.
- Code contributing companies need to consider how to assign works between Reference Controller App and Device Emulator developments.

Other Businesses

- Merge Smart Spaces WG with Common Frameworks WG ?

Thank you
