Meeting Notes

- Thursday at UTC 15:30 is another meeting to discuss the impact that the AllJoyn Security changes have to the Gateway Agent.
- Package Manager code was made public this morning. The git repository link was sent to the list.
 - It is not fully code-complete.
 - Review of this code is needed
- XMPP Connector App work is in progress
 - AllJoyn messages are being sent between two nodes over XMPP
 - Currently working on an Android controller app to allow for demonstrations

- AllJoyn On – released by Qualcomm, is an AllJoyn browser that implements all of the service frameworks.
 - This code can be made available to members by request to Shane.
- Package Manager Interface Discussion
 - Everyone agrees on the necessity of an AllJoyn interface for the Package Manager
 - This will be defined initially by Binita Gupta
 - Binita, Tsahi, and Jim will meet to discuss the interface
