plugout

Meeting Notes

1. Approve Meeting Minutes from Previous Meeting
 - A. All members approved the minutes from previous meeting.
2. Initial Code Contribution
 - A. Seungchul Han introduced initial contribution developed by LGE.
 - B. David Kaufman asked the plan for developing the certification test.
 - C. Inhwon Choi answered that after completing the code implementation, we will develop the test case and test codes for the certification but the timing might be after initial release of the service framework codes.
 - D. Mike Finch asked how we sync the xml between our sources and IRB repository.
 - E. Seungchul Han answered the xml file have to be updated by someone manually after IRB's update.
 - F. Inhwon Choi asked the possibility to link the xml files in the IRB git repository.
 - G. Inhwon Choi suggested having some time to deal with this issue cleverly.
3. List of Interfaces for Initial Release and Contributions
 - A. Inhwon Choi suggested merging the initial code implementation as a baseline for our code implementation. All members agreed.
 - B. Inhwon Choi introduced the JIRA ticket for the assignment of codes implementation.
 - C. Inhwon Choi suggested after reviewing the list of initial interfaces to be supported and assignment of code contribution table and we will reach a consensus at the next meeting.
 - D. Inhwon Choi commented two technical meetings would be remained before the Christmas holiday season in this year.

Action Items

1. Review the initial code contribution and voluntary assignments of code contributions (All members)

Next Meeting Agenda

1. Approve minutes from previous meeting.
2. Resolve residual issues on interface definitions, if any.
3. Reach a consensus about the list of the interfaces to be supported in our initial release voluntary code contributions.
