Meeting Notes

1. Approve Minutes from Previous Meeting
 - A. All members approved the minutes from previous meeting.
2. Review Meeting Minutes from Feb. 27th Meeting

Inhwan Choi presented the meeting minutes from Feb. 27th

 - A. Stefano Toppan asked the progress of investigating the issue about returning an appropriate error code when a consumer application tries to set AllJoyn Property with invalid value.
 - B. Inhwan Choi answered Seungchul Han is investigating the issue and he will share the result ASAP.
3. Approve Project Schedule Update

Inhwan Choi proposed the updated project schedule.

 - A. Tomoki Ogawa proposed to limit the duration of the F2F Meeting in Seoul 4 days.
 - B. David Kaufman and Inhwan Choi suggested that we would decide the duration of the F2F Meeting after making a draft of the F2F Meeting agenda.
 - C. Mauro Taiariol commented that we should clarify empty or null string rules of the common parts.
 - D. Inhwan Choi agreed with Mauro and he said LGE team would volunteer to ask the empty string issue to IRB - if there was no other volunteer.
 - E. Mauro Taiariol commented the device type of the common parts is still open point.
 - F. Inhwan Choi requested that all members should discuss more about our open points until Apr. 8th
 - G. All members approved the updated project schedule, where the week of 2nd F2F meeting is fixed, but the duration is still open
4. Develop Shared Part – Operational Time And Alerts

Stefano Toppan introduced the Operational Time and Alert.

 - A. Inhwan Choi asked a user scenario which can explain a necessity of the TargetDuration.
 - B. Stefano Toppan answered the real cycle depending on temperature can be finished after TargetTimeToEnd. In this case, the TargetDuration is necessary in order to represent time duration until RealCycleEnd.
 - C. Inhwan Choi commented we should consider sync between TargetDuration and TargetTimeToStart/TargetTimeToStop because they are dependent on each other and both are writable.
