

**ALLSEEN
ALLIANCE**

Technical Steering Meeting

September 28, 2015

Antitrust Compliance Notice

- AllSeen Alliance meetings involve participation by industry competitors, and it is the intention of AllSeen Alliance to conduct all of its activities in accordance with applicable antitrust and competition laws. It is therefore extremely important that attendees adhere to meeting agendas, and be aware of and not participate in any activities that are prohibited under applicable US state, federal or foreign antitrust and competition laws.
- Examples of types of actions that are prohibited at AllSeen Alliance meetings and in connection with AllSeen Alliance activities are described in the AllSeen Alliance Antitrust Policy. If you have questions about these matters, please contact your company counsel, or if you are a member of AllSeen Alliance, feel free to contact Lee Gesmer or Andrew Updegrove, of the firm of Gesmer Updegrove LLP, which provides legal counsel to AllSeen Alliance.

**Reminder:
This call is being
recorded**

- 
1. Approve minutes from previous meeting
 2. Core 15.09 update
 3. Vendor support for AJATS and Regression Testing
 - Vote to approve Selection Committee recommendation
 4. IRB activity overview

Core 15.09 Update

Core 15.09 update

- New released feature
 - ASACORE-1686 Make UDP Transport for TC ↔ RN connections product ready
- Developer preview feature
 - ASACORE-1393 Security 2.0
- Release date
 - September 30
- Pending
 - C&C WG to complete update to run certification tests for 15.09

Vendor support for AJATS and Regression Testing

Vendor support for AJATS and Regression Testing

- Status of selecting vendor support for AJATS and Regression Testing
 - The Selection Committee met on Monday, September 21 and agreed on the following:
 - Approved the consideration of the Eurofins proposals, despite missing the submission deadline (by 4 hours)
 - Agreed to recommend to the TSC that a single vendor be selected for both RFPs in order to simplify and reduce the cost of administration
 - Agreed to recommend to the TSC that OSU be selected as the vendor for both RFPs
 - Opportunity to expose engineering and computer science students to AllJoyn
 - Long history of support for open source projects
 - Likely synergies due to existing relationship between Linux Foundation and OSU
 - Location in Oregon is advantageous in the event that an onsite visit is necessary
- Vote to approve Selection Committee recommendation of OSU as the vendor for both RFPs

IRB activity overview

IRB Activity Overview September 2015

- Ongoing reviews
 - Security 2.0: ready for ratification. Will be part of the R15.09 release.
 - SmartHome, Analytics & Location Services: no new updates, appear abandoned (?)
 - HAE interfaces submitted (60-odd interfaces) end of July: converging towards a consensus
 - LSF submitted additional interfaces for their R15.04
- Unified Introspection XML
 - Dave Thaler made a proposal (<https://wiki.allseenalliance.org/irb/xmlv2>)
 - DBus Introspection XML + many AllJoyn-specific annotations
 - Will be submitted for discussion in Core WG post R15.09
- Updates to the Interface Design Guidelines document: work on v1.1 continues
 - Lessons learnt from HAE
 - Awaiting Unified Introspection XML ratification so this can be included in the final v1.1 guidelines

LSF Interface Submission

- LSF predates the IRB
 - Existing interfaces do not comply with IRB design philosophy
 - Newly added interfaces are in line with existing interfaces
 - Makes sense from a pragmatic POV
 - IRB review cannot be exhaustive in this context
- Proposal
 - IRB is lenient in its review of the R15.04 LSF interfaces
 - Existing practices in line with prior interfaces get a pass
 - LSF designs “LSF v2” (target R16.04 or R16.10)
 - Complete redesign in compliance with IRB guidelines
 - Usable with Security 2.0 (current interfaces are not secured)
 - Fitting in with the other SmartSpaces interfaces
 - There’s no reason why connected lighting is different from connected appliances

Thank You
