

AllSeen Alliance
Certification and Compliance Work Group (under TSC) Minutes
April 9, 2014
5:00pm PST
via WebEx

Participants: Telis Kaleas (QCE), Todd Benzies (LF), Lisa Lammens (QCE), Takeshi Matsushita (Sharp), David McBride (QCE), Ru Zhao (Haier), Ivan O'Neill (iControl), Tolly Smith (Silicon Image)

Telis reviewed the Antitrust Compliance Notice and the Bylaws

C&C Requirements

- Proposal has been approved by the TSC
- The requirements are now on the WG to provide
 - o Interface definitions for AllJoyn interfaces implemented by the service or core features
 - o Test case specifications for each interface
 - o Test code that exercises the functionality of the interface

Next Steps

- Telis requested of the WG the following:
 - o Review document templates within the next week
 - o Review test case specs within the next 3 weeks

Process for Each Service

- Telis reviewed a proposed process flow for how you end up with test code as detailed in the presentation slides

Plan for 14.06

- Telis encouraged the WG to look at the features that are in the release plan for 14.06 on the wiki, and:
 - o Outline any additional test case for the certification suite
 - o Review the proposed test cases
 - o Identify WGs for writing the test code
 - o Review the validation tool
 - o Identify any improvements to the tool
- Please send thoughts to Telis and he can compile for the following meeting
- It was clarified that validation is all the way down to behavior
- Currently, there is only normative testing

High Level Work Items

- Telis is determining with Board and Linux Foundation on processes, test tools, interop labs, and program management -- is there budget or can member companies provide these things?
- Ivan noted that it will be hard to find volunteers to fill these roles

Action Items

- Telis asked for Matsushita-san/Sharp to put together some thoughts around test cases review process for C&C WG
