Antitrust Compliance Notice

- AllSeen Alliance meetings involve participation by industry competitors, and it is the intention of AllSeen Alliance to conduct all of its activities in accordance with applicable antitrust and competition laws. It is therefore extremely important that attendees adhere to meeting agendas, and be aware of and not participate in any activities that are prohibited under applicable US state, federal or foreign antitrust and competition laws.

- Examples of types of actions that are prohibited at AllSeen Alliance meetings and in connection with AllSeen Alliance activities are described in the AllSeen Alliance Antitrust Policy. If you have questions about these matters, please contact your company counsel, or if you are a member of AllSeen Alliance, feel free to contact Lee Gesmer or Andrew Updegrove, of the firm of Gesmer Updegrove LLP, which provides legal counsel to AllSeen Alliance.

**Reminder:
this call is being recorded**

Agenda

- Approve minutes from last call

- Call for agenda items

- Slipstream release discussion

- LIFX lighting service proposal

- Base services git project restructuring

- File transfer service call for participation

Slipstream Releases

Current Release Process

- ## Four month release cadence
  - Predicable – membership can plan around it
  - Provides manageable feature evolution
  - Keeps projects moving forward
  - Regular bug fix rollup

- ## What about new projects?
  - New project that misses release date has to wait for four months
  - Proposal is to allow slipstreaming of initial release

Slipstream Proposal

- Allow first release of a new project mid-cycle
  - Referred to as a slipstream release
  - Slipstream release cannot depend on any unreleased features of core or any other services or tools
  - Slipstream release must be no later than 8 weeks prior to regular release cycle
  - WG must commit to synchronize with regular release cycle at next release date

Connected Lighting Proposal

Connected Lighting Proposal

- Proposed March 17th
  - Proposal from Alliance community member LIFX
  - Current contributors from LIFX and Qualcomm
  - https://wiki.allseenalliance.org/tsc/connected_lighting
- TSC to vote on proposal will be on April 1st call
  - TSC members please take time to review the proposal
  - Questions and discussion should take place on the TSC mailing list
  - This is not an April fools joke ☺

Base Services Project Reorg

Josh Hershberg
Base Service WG Chair

Proposal for Reorganizing Base Services Git Projects

- Currently broken down to (C++, Java, ObjC, ThinClient in each project)
  - services/config.git
  - services/controlpanel.git
  - services/filetransfer.git
  - services/notification.git
  - services/onboarding.git
  - services/sample_apps.git
  - services/services_common.git

Proposal for Reorganizing Base Services Git Projects (cont.)

- Propose to have just two projects, one for C++, Java, and ObjC implementations and one for ThinClient
  - services/base.git
  - services/base_tcl.git
- Each project would contain a directory per service
- Revision history will be preserved

File Transfer Service Call for Participation

File Transfer Service

- Current contribution was developed some time ago
    - The existing implementation is being used in shipping products
    - Needs to be update to leverage advances in core and base services
    - Good opportunity for new developers to participate in a relatively small project
    - Looking for a few developers to contribute and help move the code forward
    - Please email the tsc mailing list if you are interested in contributing to this project.

Thank you
