Meeting Notes

- Package Manager is code-complete
    - Needs code review prior to pushing to git repository
    - PM interface discussion will be scheduled prior to next meeting
- XMPP Connector app work has been started
    - Design document is requested and will be made available soon after internal review
- CableLabs is looking for opportunities to contribute long-term.
- Our working group needs to decide on its release strategy.
    - Need to formalize the first version of the release
- AllSeen sponsored AT&T hackathon in Vegas.
    - There was a lot of interest in gateway products

- Main agenda discussion about removal of feature-based filtering and Security 2.0 will be postponed until the next meeting
- QA status update to be provided next week
