Meeting Notes

1. Approve Meeting Minutes from Previous Meeting

    A. All members approved the minutes from previous meeting.

2. Resolve IRB's Comments on PlugInUnits

    A. Stefano Toppan introduced Dominique's comment and issue about the PlugInUnits.

    B. Inhwan Choi and Stefano Toppan agreed to keep this interfaces using static bus object.

    C. Stefano Toppan commented Mike Finch also supported static bus object by an email.

    D. Mauro Taiariol concerned about error handling when the plug-in unit is unplugged and at that time the user requests something to plug- in unit.

    E. Inhwan Choi commented that in the case of food probe, the CurrentTemperature interface doesn't have error definition and the TargetTemperature provides 2 error definitions: org.alljoyn.SmartSpaces.Error.NotAcceptableDueToInternalState, org.alljoyn.SmartSpaces.Error.RemoteControlDiabled.

    F. Inhwan Choi suggested having more time to discuss and review this issue.

    G. Mauro Taiariol concerned the error handling of this issue effects all other interfaces, and he think the solution should minimize affecting other interface.

    H. Members agreed to exchange opinions on this issue online.

3. Milestones for Service Framework Code Implementation

    A. Inhwan Choi introduced the milestones for the service framework code implementation and asked to volunteer the implementation for interfaces and device samples.

    B. Stefano Toppan commented the Electrolux team is analyzing the initial code implementation and after analysis they can share their implementation plan through the JIRA ticket.

4. Other Businesses

    A. Inhwan Choi suggested canceling the next meeting (12/24) and the meeting two weeks later (12/30) .

    B. First meeting of next year will be held on January 7, 2016 (T3).
