ALLSEEN ALLIANCE

**HAE Service Framework –
Weekly Technical Meeting**

February 25, 2016

Antitrust Compliance Notice

- AllSeen Alliance meetings involve participation by industry competitors, and it is the intention of AllSeen Alliance to conduct all of its activities in accordance with applicable antitrust and competition laws. It is therefore extremely important that attendees adhere to meeting agendas, and be aware of and not participate in any activities that are prohibited under applicable US state, federal or foreign antitrust and competition laws.

- Examples of types of actions that are prohibited at AllSeen Alliance meetings and in connection with AllSeen Alliance activities are described in the AllSeen Alliance Antitrust Policy. If you have questions about these matters, please contact your company counsel, or if you are a member of AllSeen Alliance, feel free to contact Lee Gesmer or Andrew Updegrove, of the firm of Gesmer Updegrove LLP, which provides legal counsel to AllSeen Alliance.

Reminder: This call is being recorded

Agenda

1. Approve Meeting Minutes from Previous Meeting

2. Feedback Request from Core WG

3. Update Project Milestones

4. Other Businesses

Feedback Request from Core WG

- Feedback Request on breaking ECDHE_ECDSA backward compatibility
  - Please respond if breaking ECDHE_ECDSA backwards compatibility between the upcoming core 16.04 release and 15.04/15.09 would cause an issue for your projects or products.
  - The core working group is evaluating the need for core 16.04 to provide backwards compatibility support for the ECDHE_ECDSA authentication method that was added in the 15.04 core release.
  - The only compatibility issue is if ECDHE_ECDSA is used.

- Authentication Options in Security 2.0
  - Refer to the latest version of Security 2.0 HLD here.

ECDHE	Elliptic Curve Diffie-Hellman Ephemeral key exchange
ECDHE_ECDSA	ECDHE key agreement with asymmetric DSA based authentication.
ECDHE_NULL	ECDHE key agreement only. No authentication.
ECDHE_PSK	ECDHE key agreement with symmetric key/pin/password based authentication.

Adopt for HAE

Update Project Milestones

No.	Milestone	Oct. 05, 2015 Update	As of Today
1	Service Framework Source	Feb. 26, 2016	Mar. 18, 2016
2	Test Suite (Test Cases Spec., Test Codes), Reference Controller App (Android), Device Emulator	Apr. 29, 2016	May 27
3	C&C Review	N/A	Jul. 1
4	Certification Launch (CBI Review)	May 27, 2016	Aug. 19

- Milestone No.2 demands a huge amount of work. Voluntary contributions for the Test Cases development especially from non code contributing members are highly requested. If we could have a Test Cases Spec. Owner, then it would be very much efficient and appreciated.

- Code contributing companies need to consider how to assign works between Reference Controller App and Device Emulator developments.

Other Businesses

- Share Code Implementation Status

Thank you
