Security 2.0 Combined Milestones as of 9/16/14

- September
  - QCE
    - PermissionMgmt interface preliminary (SC)
      - Sept 26
- October
  - QCE
    - Validation enforcement preliminary (SC)
      - Oct 21
    - Permission management preliminary (TC)
      - Oct 22
  - Technicolor
    - Proxy distribution agent API definition
      - Oct 10
    - Proxy distribution agent architecture
      - Oct 10
- November
  - QCE
    - Permission management (SC/TC)
      - DC Nov 14
    - Java android test applications (SC)
      - Nov 14
    - IOS sample test applications (SC)
      - Nov 14
  - Technicolor
    - Security manager utility v0.5
      - DC Nov 3
    - Security manager android sample application v0.5
      - DC Nov 17
- December
  - Microsoft
    - Threat Analysis
    - Design Documentation
    - Complete design reviews
  - Technicolor
    - Security manager utility v1.5
      - Dec 12
    - Security manager android sample application v1.5
      - Dec 12
- January
  - Microsoft
    - Implement
      - About service changes

- Message header encryption
- Windows keystore
  - Dependency: QCOM keystore hooks for Core Services
- Federated user identity prototype
- Windows security manager sample app
  - Dependency: collaboration with Technicolor building Android/iOS Security Managers.
- February
  - Microsoft
    - Optional credential management plug-in model
    - Test case documentation
    - Windows Telemetry
- March
  - All
    - Testing
- April
  - Core 15.04 Release
