ALLSEEN ALLIANCE

Core Working Group Meeting

Reminder:

This call is being recorded

Antitrust Compliance Notice

- AllSeen Alliance meetings involve participation by industry competitors, and it is the intention of AllSeen Alliance to conduct all of its activities in accordance with applicable antitrust and competition laws. It is therefore extremely important that attendees adhere to meeting agendas, and be aware of and not participate in any activities that are prohibited under applicable US state, federal or foreign antitrust and competition laws.

- Examples of types of actions that are prohibited at AllSeen Alliance meetings and in connection with AllSeen Alliance activities are described in the AllSeen Alliance Antitrust Policy. If you have questions about these matters, please contact your company counsel, or if you are a member of AllSeen Alliance, feel free to contact Lee Gesmer or Andrew Updegrove, of the firm of Gesmer Updegrove LLP, which provides legal counsel to AllSeen Alliance.

Agenda

- Gerrit change backlog for alljoyn and ajtcl
  - 8879:ASACORE-3177 Problem when parsing comments in router configuration file
    - Merged
  - 8965: ASACORE-3213 CryptoECC rmaining functions
    - Needs review: agreed can merge post branch
  - 8955: ASACORE-3225: Update JNI to support MessageContext in Java Property handlers
    - Kevin +1, Marcello +2, anyone else want to look before merge?
    - Josh will take a look at this to make sure it is taking the appropriate API approach.
    - If he is good with it we will merge, if not we will discuss if we want to make changes to API at this stage or not.
- Branch? Yes! Branch cut.
- Test strategy review in 9/29 meeting
- ASACORE-2608 - public Security 2.0 API improvements
  - Blocked by ASACORE-2817 - Move data members out of Security 2.0 public classes
    - This has been moved to FMR, seems we should move to subtask for further Sec2.0 enhavements, or make task on own
  - Arvind will sync up with Dan M on this item so we can close 2608. Will most likely break out sub-tasks as stand alone tasks
- AI: Affinegy team to review existing test cases for new features or updated components (TestLink)

Thank You
