HAE Service Framework – Weekly Technical Meeting

July 30, 2015

Antitrust Compliance Notice

- AllSeen Alliance meetings involve participation by industry competitors, and it is the intention of AllSeen Alliance to conduct all of its activities in accordance with applicable antitrust and competition laws. It is therefore extremely important that attendees adhere to meeting agendas, and be aware of and not participate in any activities that are prohibited under applicable US state, federal or foreign antitrust and competition laws.

- Examples of types of actions that are prohibited at AllSeen Alliance meetings and in connection with AllSeen Alliance activities are described in the AllSeen Alliance Antitrust Policy. If you have questions about these matters, please contact your company counsel, or if you are a member of AllSeen Alliance, feel free to contact Lee Gesmer or Andrew Updegrove, of the firm of Gesmer Updegrove LLP, which provides legal counsel to AllSeen Alliance.

**Reminder:
This call is being
recorded**

Agenda

1. Approve Minutes from Previous Meeting

2. How to Respond to IRB Comments

3. Discussions on IRB Comments

How to Respond to IRB Comments

- In principle, all members can respond to IRB comments.

- To ensure the whole interfaces coverage, at least the author of each interface has a primary responsibility to respond.

- Discuss and resolve any significant issues via mailing and weekly calls. If required, create a Jira ticket per issue.

- Use HAE repository to collect updates per namespace.

- The original author of each interface should provide new patch set based on the resolutions by end of the week.

- Each namespace owner is a gatekeeper checking all the IRB comments are addressed by the new patch sets.

- Each namespace owner should upload new patch sets by early next week.

Discussions on IRB Comments

- Fixed-point vs Float-point Representation

  - https://git.allseenalliance.org/gerrit/#/c/5125/1/interfaces/org.alljoyn.SmartSpaces.Operation/EnergyUsage-v1.md

  - Review the attached e-mail thread between IRB members.

    RE Allseen-irb-private答? Reconsideration of fixed point integers vs. floating point for interfaces.ms

- LanguageDisplay

  - https://git.allseenalliance.org/gerrit/#/c/5131/1/org.alljoyn.SmartSpaces.UserInterfaceSettings/LanguageDisplay-v1.md

  - Isn't this a functional duplicate of the language settings in the Configuration Base Service? If there is a good reason to have a separate LanguageDisplay interface here, it might be a good idea to add the rationale in this document.

- TimeDisplay, then what about Date ?

  - https://git.allseenalliance.org/gerrit/#/c/5131/1/org.alljoyn.SmartSpaces.UserInterfaceSettings/TimeDisplay-v1.md

  - Would it make sense to extend this interface to time and date, or to define the accompanying date interface from the start?

Thank you
